

Administrative Ministry Input

- a) Provides and coordinates both human, financial, and material resources and support for the church mission, vision, and all its ministries.
- b) Good stewardship of all resources promotes facilities and an environment conducive to supporting effective ministry and service.
- c) The ministry enables a physically safe and secure environment for the church staff and family.
- d) The purposeful presentation of the Word requires the latest and best technology support for staff and volunteers. Additional IT and AV software and equipment are needed to support improvement and expansion of existing technology.
- e) Additional and more appropriately designed administrative space is needed to improve ministry support and services to both the staff and volunteers.
- f) Ministry directors' offices need to be more appropriately designed and located for improved effectiveness and efficiency.
- g) Additional general meeting rooms are needed equipped with up to date IT and AV software and equipment.
- h) Both general purpose and ministry specific storage areas are lacking and needed.
- i) A church bookstore and coffee house are missing but very desirable for supporting Bible study, building community, and providing fellowship opportunities for all age groups.
